Dear Air Cdre Jones,

THE PROPOSED ATLANTIC ARRAY OFFSHORE WIND FARM DEVELOPMENT

1. On 22nd December 2010 you were consulted on the Atlantic Array Off-shore Wind Farm (AA OWF). At Figure 1 within that consultation document was a graphic of the proposed AA OWF area.
2. Following responses received from the initial (non-aviation related) consultation round, the outline of the AA OWF has been refined and the latest configuration is at Figure 1, attached.
3. We do not envisage that the minor changes to the outline and the introduction of maritime transit routes will materially alter the potential impact of the AA OWF on aeronautical operations, beyond those already identified. However, the revised data is forwarded to you to keep you abreast of the latest developments and design iterations for your reference and further comment if appropriate.
4. Should you consider that the AA OWF outline changes affect your previous responses to the initial consultation, please let us know by 26 August 2011 at the latest. If no response has been received by that date we will assume that your current position is unchanged.
5. We look forward to your early response so that we have the opportunity to incorporate your views into the project design at the earliest possible stage.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Andrew Radforth', with a horizontal line underneath.

Andrew Radforth
ATM Specialist

Enclosure:

1. Figure 1. AA OWF Latest Outline Design Iteration.
