Dear Air Cdre Jones,

THE PROPOSED ATLANTIC ARRAY OFFSHORE WIND FARM DEVELOPMENT

1. You will probably be aware of the Atlantic Array Offshore Wind Farm development that is being proposed for the Bristol Channel. Cyrrus Ltd has been appointed by RWE as their Consultants for the aviation aspects of the project.
2. The object of this letter is to provide you with some essential background information and invite you to engage in an early - informal - consultation meeting so that we may ascertain your views and comments on how this large wind farm development may affect or influence your operations. To assist in this process, attached at Enclosure 1 is a briefing document on the progress of the project thus far which includes a graphical illustration of the outline wind farm development.
3. We invite you to peruse the data provided and then contact us with any points that you may wish to raise, so that these can be addressed in the wind farm's development process. If necessary, we would be pleased to arrange a briefing/consultation meeting at a mutually agreeable date and location.
4. We look forward to your early response so that we have the opportunity to incorporate your views into the project design at the earliest possible stage.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Andrew Radforth', written over a blue horizontal line.

Andrew Radforth
ATM Specialist
