

ICAO EUR/NAT Office  
Information Paper

**ICAO Safety Management SARPs  
For States and for Service Providers**

The latest ICAO Council decisions on Safety Management (SM) were adopted during the February/March 2009 Session.

This paper and its appendices provide information on the latest status of the Safety Management SARPs and the official publication of them as amendments to Annexes, as of Mid-2009.

**Appendix A** gives an overview of the applicability dates subdivided into SARPs for Service Providers and SARPs for States.

**Appendix B** is the consolidation in full text of the SARPs, which have been adopted by the ICAO Council during the February/March session.

The “green version” of the Annex amendments has already been circulated to Contracting States immediately after the adoption in March 2009.

**Appendix C**, ICAO Electronic Bulletin EB 2009/023 dated 14 August 2009, lists all the Annex amendments that have become effective on 20 July 2009.

The first part of these amendments was distributed to contracting States late July 2009 (July air cargo) and the second part will be distributed early September 2009 (August air cargo).

- Appendices:**
- A) Safety Management SARPs Overview Applicability Dates
  - B) SMS Annex x ref-full.
  - C) ICAO Electronic Bulletin EB 2009/023
