

Safety Management Systems (SMS)

A Workshop for Senior Management of ENAC

Captain Daniel Maurino

Flight Safety and Human Factors – ICAO

Rome, 21 May 2007

Workshop goals

The goals of the ICAO Safety Management Systems (SMS) Senior Management Workshop are to provide participants with :

- an overview of ICAO Standards and Recommended Practices (SARPs) on safety management in Annexes 6, 11 and 14, and their underlying concepts, and
- a structured process for the implementation of a safety programme and an SMS, as proposed by ICAO
