

## GNSS Vulnerability Meeting, 13 September 2011

### List of Actions

Ref.	Description	Responsible	Due Date	Status
1	Clarify the position with respect to implementation of Wireless Internet within the UK, specifically the risk from use of frequencies adjacent to GPS L1 (e.g., Light Squared).	Ken Ashton and Andy Knill, CAA	October 31	Open
2	Clarify the position with respect to plans within the UK concerning use of electrical transmission networks for communication purposes and the potential for interference with GNSS.	Ken Ashton and Andy Knill, CAA		Open
3	Circulate ICAO Navigation Systems Panel (NSP) draft paper on GNSS Vulnerability being prepared for ANC 12.	Geoff Burtenshaw	September, 13	Closed
	Provide comments back to Geoff Burtenshaw.	GAPAN, UK FSC, BALPA	October, 31	Open
4	Confirm whether there are merits for a UK paper to ANC 12.  Note: it would have to be something not already covered elsewhere and would have to be consistent with a European position.	GAPAN, UK FSC, BALPA	November, 30	Open
5	CAA and NATS to prepare a 3 page 'flyer' addressing the GNSS Vulnerability issue in terms of interference mechanisms and risk mitigations against the backdrop of Future Airspace implementation plans.	Ken Ashton And Geoff Burtenshaw	November, 30	Open
	Prepare briefings to GAPAN, UK FSC and BALPA.	Ken Ashton And Geoff Burtenshaw	TBA	Open
